A Doubles Championships has been added to the SAJCC. This will be fun event in the SAJCC Chess festival. Regions are requested to enter their players who want to participate in this event.

Doubles Chess is a popular chess variant played on two chessboards by four players in teams of two. Normal chess rules apply, except that captured pieces on one board are passed on to the teammate on the other board, who then has the option of putting these pieces on his or her board.

The game is usually played at a fast time control; this, together with the passing and dropping of pieces, can make the game look chaotic and random to the casual onlooker. The game is traditionally played as a diversion from regular chess.
